

UPDATE V1.6

“Social Microblogging PRO”

By Miguel Vasquez

- Fixed bug XSS
- Added Facebook Login

Files Affected

- / **public** / **controllers** / pagesController.php
- / **models** / UserModel.php
- / **views** / **inc** / advertising.php
- / **views** / **inc** / navigation.php
- / **views** / **index** / index_session_null.phtml
- / **views** / **modules** / profileModule.php
- / **views** / **user** / profile.phtml

Add these lines at the end in: / **application** / DataConfig.php

```
define('APP_ID', ''); // (API ID)
define('APP_SECRET', ''); // (API Secret)
```

Create an application on the following link: <https://developers.facebook.com/>

Files News

- / **oauth** / **Facebook** /

Thanks!
